

AAZIB ABDULLAH

AI ENGINEER

☎ +92 335 8127206 | ✉ aazibarin63@gmail.com | 📍 Islamabad, Pakistan | 🔗 linkedin.com/in/aazib-abdullah

AI Engineer with a strong foundation in deep learning, machine learning and backend-focused full-stack development, specialized in building and deploying data-driven, model-backed applications.

Hands-on experience training and evaluating ML/DL models for medical imaging and NLP, and shipping them inside production-ready web applications.

Quick learner with a research mindset, keen to apply generative AI and computer vision techniques to solve real-world problems.

📁 EXPERIENCE

Freelance Developer Aug 2023 – Present

Fiverr

- Deliver custom software and Python/ML-based solutions for international clients, from requirement gathering to final delivery.
- Build and debug data processing scripts and applications in Python, C/C++ and Java.
- Maintain strong client communication, achieving Level 1 Seller status through consistent, high-quality delivery.

🔗 PROJECTS

SpineScan – Lumbar MRI Degeneration Classification *(Final Year Project)*

Built a deep learning pipeline that processes lumbar spine MRI scans to detect and classify degeneration, with automated severity grading, a companion dashboard to support clinicians in disease monitoring.

Tech: Python, TensorFlow, Scikit-learn, OpenCV, Flask

AI Model Robustness & Defense Toolkit *(Adversarial ML Security)*

Trained a CNN traffic-sign classifier from scratch, implemented FGSM/PGD adversarial attacks and adversarial-training and input-preprocessing defenses to measure and improve robustness, then shipped the results as a live interactive dashboard for real-time attack/defense demonstration.

Tech: Python, TensorFlow, OpenCV, FastAPI, Next.js

🎓 EDUCATION

MS Artificial Intelligence 2026 – Present

NUST – College of Electrical and Mechanical Engineering, Rawalpindi

BS Computer Science 2022 – 2026

FAST – National University of Computer and Emerging Sciences, Islamabad

F.Sc (Physics, Chemistry, Mathematics) 2020 – 2022

New Life Public Higher Secondary College, Kunri, Sindh

O Levels (Physics, Chemistry, Computer Science) 2017 – 2020

Sarghodian Spirit Trust Public School, Tando Allah Yar

⚙️ SKILLS

AI / Machine Learning

Python	●●●●●
TensorFlow / Keras	●●●●●
Scikit-learn	●●●●○
Deep Learning / NLP	●●●●○
Computer Vision (OpenCV)	●●●●○

Programming & Backend

Java / C / C++	●●●●●
SQL & Databases	●●●●○
Django REST Framework	●●●○●
HTML / CSS	●●●●○

Core Competencies

Data Structures & Algorithms	●●●●●
Model Training & Evaluation	●●●●○
Problem Solving	●●●●●

🔧 TOOLS & TECHNOLOGIES

- TensorFlow, Scikit-learn, Keras, OpenCV
- MySQL, MongoDB
- Git, GitHub
- VS Code, Kaggle, Jupyter
- Postman

★ CERTIFICATIONS

- IBM AI Engineering Professional Certificate
- Securing Generative AI
- .NET Full Stack Developer Specialization

🏆 ACHIEVEMENTS

- Secured 3rd Position in a National-Level Mathematics competition.
- Achieved Level 1 Seller status on Fiverr for high-quality delivery.
